## Adjustments For Local Post Office

The limited adjustments in some postal services ordered in Washington March 10 by Postmaster General John A. Gronouski to save \$12.7 million will begin to take effect in Canal Point and other cities May 4, Postmaster Edythe Smith said today.

Service changes planned locally include the following, Mrs. Smith said:

1. There will be no charge at all in our system of parcel post delivery.

2. Beginning May 4, 1964 there will not be any money orders written or box rents collected on Saturday mornings. Only one window will be open on Saturday mornings and that will be for general delivery mail, C.O.D.'s, stamps, registers, and parcel post.

3. The star route carrier who serves the area north of Canal Point to Port Mayaca will not be able to accept any money order applications on Saturdays.

The Postmaster emphasized that no essential major services are affected under the orders. There will be no change in special delivery, for example. Regular business mail deliveries will continue as usual. Letters and other first class mail will be handled with the same priority as ever.

The economy step, Mrs. Smith explained, is in line with President Johnson's programs under which the recent Federal income tax cut was provided.

## Porpoises Will Go To World's Fair

MIAMI — Five porpoises and four sea lions, all graduates of the Miami Seaquarium's sea school and underwater university, have traveled to New York to star in the 1964-65 New York World's Fair.

Highly trained in tail dancing, high-jumping, the poleless porpoise vault and singing duets, these will be the first porpoises ever to perform at any world's fair.

They traveled from Miami in an Eastern Air Lines Constellation flying freighter, reclining on special foam rubber mattresses. With them were Bob Baldwin, director of operations of the Seaquarium, and Jimmy Klyne, their trainer. The porpoises' silky skin was kept moist by frequent dousing of water.

The show is staged in a special pool holding 170,000 gallons of "manufactured" salt water, at the 3.12 acres of the Florida exhibit. The amphitheatre surrounding the pool seats 1,600 people.

Mrs. Virginia Crews had as her guests Sunday her sisters and brother-in-law, Mrs. Andy Nychyk of Ft. Myers and Mr. and Mrs. Robert Hitchcock of Alachua.

## The Glades Pay Port Taxes Too!

In the past 15 years, the Port of Palm Beach District has collected more than \$6 million in taxes—Glades residents have paid a generous slice of this amount! And For What Return?

The present commission, instead of using port revenue to pay its operating expense, channels port revenue into its pet projects and is using your tax dollars to underwrite its mis-management. Your tax money goes for high priced legal and engineering council, into promotional exploits which seldom produce anything of value, into land speculation and so-called Port improvements. Glades residents do not benefit from such wasteful spending. The incumbents now propose to spend \$500,000 more to widen and deepen the Palm Beach Inlet—a project not needed for port operation. John Rybovich, Jr., is strongly opposed to this wasteful spending; to dredging the inlet, to the constant spiral of District taxes and to needless port expansion. You can help eliminate this expensive situation by voting May 5th for John Rybovich, Jr.

For this reason, I am spending my campaigning time in Washington . . . doing the job you sent me to do. In the meantime, I warmly ask you to consider my past service to you and our great State of Florida and return me to the United States Senate as your senior senator."

Formerly owned by the Callaway interests, the Hamilton, Georgia mill will be a half-million-dollar corn meal producing and distribution center, covering Georgia, Alabama, South Carolina, North Carolina, Mississippi and Kentucky.

"Work has already begun on

adding two more "rocks" to the six already producing corn meal," Webb said. "We plan to landscape the entire area, which included a natural waterfall from which the mill's operating power comes. It will be open to the public for inspection."

The Pine Mountain Milling Company will be in operation 24 hours a day, and will distribute products in states east of the Mississippi. Dixie Lily Milling Company will continue to supply Florida. The Eelbeck Mill operation in Columbus will be moved to the mill on Pine Mountain, and will distribute Eelbeck meal and other products.

Webb, a multi-million dollar industrialist, is a native of Richland, Georgia, and once worked with Eelbeck in Columbus before moving to Florida where he founded his Dixie Lily Milling Company. Webb said that Eelbeck once owned the mill which he purchased from the Callaways.

When you vote for your favorite County Commission candidate, remember that my only real estate interests are my own home and 3 popular Uncle BIM business locations in Palm Beach County. As a successful businessman, with 4 eventful years of governmental experience behind me, I can bring to the County Commission the kind of close cooperation between county and community that holds down taxes in both. Let's work together to beat the cost of both county and town administration. A good place to start is by electing Uncle BIM.

U. S. Sugar Corp  
Closed Good Season

CLEWISTON — United States Sugar Corporation celebrated the end of the 1963-64 sugar cane harvest season—recently with one of the largest barbecues ever held in Florida.

Barbecued beef and pork, and all the trimmings, was prepared for some 3,600 people which included employees and their families. Cooked in huge pits for over 24 hours prior to the party, the food was served in the company's Clewiston Sugar House where the giant stalks of cane are ground into raw sugar while the harvest is in full swing.

Long-time employees were also honored through the presentation of service pins. This year's feature was the awarding of a 40-year pin to Walter Murph, an employee in the Bryant mill. Others were recognized for service extending from five to 35 years.

The celebration ended Saturday night with a dance in the local country club with U. S. Sugar picking up the check. Employees danced to a top-flight name band until the wee hours.

## Your Protest Is Invited!

Everglades residents in the Port of Palm Beach District Are Entitled to More Than Just "Lip Service" at Election Time!

The present Port Commissioners have apparently forgotten the boundaries of the District—Lake Okeechobee to the Atlantic. The Glades has received few benefits from the incumbents, most of these just prior to an election.

## Now Is The Time To Make A Change!

William G. "Bill" Hobbs is aware of the district boundaries—he is aware of the source of Port taxes. Bill Hobbs believes in reviewing the needs of the entire District—then filling these needs with a more equitable distribution of tax funds. Further—Bill Hobbs will make every effort to put the District on a paying basis in order to achieve drastic cuts in taxes now levied.

"reprint of The Miami Herald, 4-17-64"

## The Herald Recommends . . .

We recommend the renomination of Spessard Holland as Democratic candidate for the United States Senate, a body which he decorates as few men do.

The Senate, as Daniel Webster said, "is a hall for mutual consultation and discussion; not an arena for the exhibition of champions."

Its members are, more than anything else, a deliberative body with a prestige unequalled in any parliament or congress.

Senator Holland has served three full terms in this body and part of a fourth. This is the tribute paid him by his Florida constituency, and we think it is because he fits the classic prescriptions of U. S. Senator.

He is dignified without being pompous.

He is direct without being dictatorial.

He is a reasoning man; and thus, in a deliberative body, a deliberative man with a mellow toleration of opposing opinions.

He is, most of all, a knowledgeable legislator who does his homework.

These qualities are important in a public servant who is one of only 100 Americans possessing awesome powers over the security of the nation and the lives and property of its people. Among those 100, Senator Holland ranks 12th in seniority. His score of years in Washington, which followed his wartime governorship of Florida, have brought him major appointments on standing and special committees.

For instance, he is a member of the Committee on Agriculture and Forestry and is chairman of one of its subcommittees; he is a member of the powerful Appropriations Committee, and again the chairman of a sub-committee. He is a member of the new and significant Aeronautical and Space Science Committee, with which Florida needs close and abiding liaison.

Senator Holland is 72. His mind is as sharp and his step is as quick as a man many years his junior. We hope that the voters will say on May 5 that this unassuming statesman, whose brand of conservatism is positive and purposeful, is their choice for yet a fourth servatism is positive and purposeful, is their choice for yet a fourth Florida.

## Improved Fishing As Result Derby

ST. PETERSBURG — The value of the Schlitz Florida \$500,000 Fishing Derby in research toward improving fishing in Florida has been highlighted by the Florida State Board of Conservation Marine Laboratory in St. Petersburg. A recently published book, "The Tagging of Fishes in Florida" outlines methods and results of trans-

lating salt water catches of Schlitz tagged fish into advanced knowledge of fish management, conservation and recreation.

The Fishing Derby is in its fourth year of public participation with awards of as much as \$10,000 to captors of fish that have been tagged. These fish are used for research by the Board of Conservation and the Florida Game and Fresh Water Fish Commission.

All costs of the program are defrayed by the Jos. Schlitz Brewing Co. which has distributed more than \$200,000 in awards to Florida fishermen since the derby began in 1961.

The new book by Robert Topp features charts plus "a systematic biological investigation, including carefully planned tagging programs of extensive scope," according to the Board of Conservation head of salt water research, Robert M. Ingile.
